## Most popular HRW wheat variety sold in 2017: SY Monument

**SY Monument** is broadly adapted with good yields across the area of adaptation. It has a white chaff and is a medium-late maturing variety. It is moderate resistance to leaf and stripe rust and is a high tillering wheat with good head size, excellent acid tolerance, Soil-Borne Wheat Mosaic Virus resistance, good winter hardiness, and very good test weight patterns. SY Monument can only be sold as a class of certified seed.

SY Monument is available from 9 certified seed dealers in Nebraska.

**WB-Grainfield** is medium maturing with good winter hardiness. It is medium in height with very good straw strength. It is resistant to leaf rust, moderately resistant to stripe rust and tan spot, and moderately susceptible to powdery mildew and fusarium head blight. WB-Grainfield can only be sold as a class of certified seed.

WB-Grainfield is available from 4 certified seed dealers in Nebraska.

**Husker Genetics: Robidoux** is moderately late in maturity and best adapted to western rainfed areas where drought is common and irrigated production sites are used. It is moderately resistant to stripe rust and moderately resistant to moderately susceptible to stem rust. It is moderately susceptible to leaf rust. It is susceptible to Hessian fly, wheat streak mosaic virus, and common bunt. Robidoux can only be sold as a class of certified seed.

Robidoux is available from 5 certified seed dealers in Nebraska.
